CALIFORNIA NURSERY COMPANY

Fruit and Ornamental Trees, Evergreens, Palms
Roses, Etc.

1903-04

Niles - - California

LOCATION: One-half Mile West of Niles. Telegraph Con-
nection from Niles to Office

FIVE HUNDRED ACRES

TO CORRESPONDENTS

1st. All orders should be sent in as early as possible.

2d. Orders should be legibly written out on a separate sheet and not mixed up in the body of the letter, thereby saving us a great deal of trouble, and tending to prevent mistakes.

3d. The articles in the following list will be furnished at the annexed prices **only** when the quantity specified shall be taken. **Fifty**, however, will be furnished at the **hundred** rate, and **five** at the **ten** rate. In no case does this mean so many trees of assorted classes, but refers only to **one class** of assorted varieties, for instance, 5 Apples, or 5 Pears, or 5 Plums, of different varieties, but not 2 Apples, 2 Pears, and 1 Plum.

4th. Where particular varieties are ordered, and particular ages and sizes of trees, kind of stock, etc., it should be stated whether, and to what extent, substitution will be allowed in case the order can not be filled to the letter. Where no instructions in this respect accompany the order, we shall feel at liberty to substitute other varieties as nearly similar as possible. If the selection of varieties is left **entirely** to us, we shall endeavor to send only such sorts as are acknowledged to give general satisfaction.

5th. All trees and plants are carefully labeled, and securely packed in the best manner, for which a moderate charge, sufficient to cover cost of material only, will be made; but no charge is made for the delivery of packages at the railroad or express offices at Niles.

6th. It is requested that explicit directions for marking and shipping packages accompany each order. When it is left for us to choose the mode of conveyance, we will exercise our best judgment; but as all articles are at the risk of the purchaser after being shipped, we must not be held responsible for any loss or delay that may occur through the negligence of the forwarders.

7th. Our customers are requested to notify us immediately of any errors that may be committed in filling their orders, so that we may at once rectify the same, as we desire to conduct our business in all respects satisfactorily to those who favor us with their confidence.

8th. Orders from unknown correspondents **must** be accompanied by the cash, or satisfactory reference. Orders to be sent C. O. D. **must** be accompanied by at least one-half the amount in cash; otherwise they will receive no attention.

9th. Remittances may be made by draft on San Francisco, Wells, Fargo & Company's and postoffice money orders on Niles, or cash by express, prepaid.

10th. Orders priced at single rates, and not exceeding four pounds in weight, can be forwarded by mail, postage paid; but when possible we recommend having them sent by express, as we are then able to send much stronger and better plants.

All communications to be addressed to

CALIFORNIA NURSERY COMPANY,

Niles, California.

REMARKS

We have pleasure in submitting herewith our price-list for the coming season (nineteenth edition). It is our aim and intention, as hitherto, to supply only the best stock at the lowest prices, and the stock in hand for the new season is larger and more varied than ever before. We invite all to visit the Nursery, which is the largest, by far, of any on the Pacific Coast, whether as intending purchasers, or otherwise. If parties will notify us of the time of their arrival at Niles, we will have conveyance at station to meet them.

To reach our Nursery from San Francisco, take the broad gauge ferry-boat for Oakland, leaving at 8:00, 8:30 A. M., and 12:00 M., and 3:30, 4:00, 4:30, 5:30 and 6:00 P. M. These make close connections with through trains direct to Niles. From Sacramento and all points centering there, the train leaving at 10:15 A. M. for San Francisco, *via* Lathrop, Tracy, Livermore, etc., should be taken. From San Jose and its southern connections, trains leaving at 5:15, 6:15, 8:40, and 9:30 A. M., and 12:35 and 4:35 P. M.

CALIFORNIA NURSERY COMPANY.

Niles, November 1st, 1903.

OFFICERS :

WM. J. LANDERS, President,
JOHN H. HENN, Secretary.

H. W. MEEK, Vice-President,
CENTRAL BANK, Oakland, Treasurer
JOHN ROCK, Manager.

DIRECTORS :

WM. J. LANDERS, San Francisco,
HORRY W. MEEK, San Lorenzo,
EGBERT B. STONE, Elmhurst,

W. G. PALMANTEER, Oakland.
A. C. HAMMOND, JR., San Francisco,
JOHN H. HENN, San Francisco,
F. W. HOSMER, San Francisco.

SPECIAL NOTICE

Those only who can show a certificate of recent date, with our signature and the seal of the company attached, are authorized to solicit orders for us. We wish to call special attention to this notice, as we know it has heretofore been the practice of unprincipled persons to procure the catalogue of prominent nurseries and take orders in their names which they fill with poor stock bought elsewhere. If our patrons will notify us of any person whom they have reason to believe is not a regularly appointed agent, we shall consider it a favor.

HINTS ON TRANSPLANTING

The many excellent treatises on Fruit Culture which have appeared within the past few years—one or more of which should be in the hands of every person intending to plant—render it almost unnecessary to give any directions in that line; yet we are so frequently asked for advice in this way, that we have concluded to offer a few general remarks.

The situation of the orchard having been decided on, the ground should be deeply plowed, subsoiled and thoroughly pulverized. The holes should be dug at least a foot larger in every direction than actually required by the roots when spread out in their natural position. In planting, the top soil should be broken down into the hole, and worked carefully in between every root and fiber, filling up every crevice, that every root may be in contact with soil, and the whole made quite firm as the filling up progresses. The tree, when planted, may in light soils stand from two to three inches deeper than it stood in the nursery; but in heavy clay or wet ground it is advisable to have it stand at the same height as it was before transplanting.

On account of our long, hot, dry summers, it is well to shade the sunny side of the tree, to keep borers out, with a board or shake, stuck in the ground, or a piece of burlap wound loose around the tree up to the limbs, top tied loose with a string. Whitewash made out of whitening or lime will also protect the tree against sunscald.

The following works, by California authors of wide experience, and written with Pacific Coast conditions particularly in view, will be found very useful to all Horticulturists:

"California Fruits, and How to Grow Them" by Prof. E. G. Wickson, \$2.50.

"The Raisin Industry," by Prof. Gustav Eisen, \$3.00.

"Grape Culture and Wine Making," by George Husman, \$2.00.

For the convenience of our customers we have arranged to furnish them at the above publishers prices.

DISTANCES FOR PLANTING

Standard Apples.....	25 to 30 feet apart each way
Standard Pears.....	20 to 24 " "
Strong-growing Cherries.....	20 to 24 " "
Duke and Morello Cherries.....	18 to 20 " "
Standard Plums and Prunes.....	20 to 24 " "
Peaches and Nectarines.....	20 to 24 " "
Apricots.....	24 to 30 " "
Grapes.....	7 to 10 " "
Currants and Gooseberries.....	4 by 6 feet
Raspberries and Blackberries.....	3 to 4 by 5 to 7 "
Strawberries for field culture.....	1 to 1½ by 4 to 5 "
Strawberries for garden culture.....	1 to 2 feet apart

Number of Trees or Plants on an Acre at Given Distances Apart

	SQUARE METHOD	EQUILATERAL TRIANGLE METHOD
Distance, 1 foot apart each way, number plants.....	43,560	50,300

" 30 " " " ".....	48	55
" 35 " " " ".....	35	40
" 40 " " " ".....	27	31

RULE—SQUARE METHOD.—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which, divided into the number of feet in an acre (43,560), will give the number of plants or trees to the acre.

RULE—EQUILATERAL TRIANGLE METHOD.—Divide the number required to the acre "square method" by the decimal .866. The result will be the number of plants required to the acre by this method.

PRICE LIST

OF

CALIFORNIA NURSERY CO.

Season 1903-1904

Prices quoted herein are for quantities and sizes specified; *for extra sizes, varieties, or quantities other than mentioned, special prices will be made.* Estimates cheerfully furnished on such lists.

 For index, see last page of Catalogue.

FRUIT DEPARTMENT

All our Fruit Trees are grown on **WHOLE** Seedling roots. The advantages of these in promoting the health and thriftiness of trees over others grafted on pieces or sections of roots, or budded on stocks grown from cuttings, is acknowledged by the best authorities, and is easily apparent to the most casual observer. *All two-year-old trees are branched low and are stocky, having been cut down or headed back when yearlings, two feet above ground, except where noted*

All of our Apple Trees and Grapevines are fumigated with hydrocyanic gas when dug, so are the buds, scions, and cuttings, prior to budding, grafting or planting out in Nursery. This positively kills any insects that may be thereon, without any injury to tree or vines. We have erected on our grounds a new Fumigating House, with three compartments, so that we can disinfect, at any time, either 50 trees or 10,000.

	Each	Per 10.	Per 100.

JORDAN ALMOND

We offer this for the first time. Introduced from Spain, where they are grown largely for export. This variety sells in New York from 8 to 10 cents per pound more than any other. The Jordan is the largest, sweetest and finest flavored of all the Almonds. The kernels have a very thin skin and are plump, filling the shell, which is hard. The flavor and texture of the flesh surpasses in delicacy any other kind. Jordan Almonds are preferred by confectioners, owing to their large size and thin skins, for making salted and sugared Almonds. We sent samples grown on our own trees at Niles, to the U. S. Consul, B. H. Ridgley, at Malaga, Spain, who had three prominent dealers test them. They all pronounced them the *true* Jordan Almond. The stock we offer is all propagated from our own bearing trees that have had a full crop for the last three consecutive years.

Trees 1 year old on Almond, 4 to 6 ft., each 75c; per 10, \$6.00; per 100, \$50

PLACENTIA WALNUT

The Santa Barbara Soft Shell Walnut is the standard from which all varieties are judged as grown in Southern California. The Placentia is a selected variety of this standard sort. The nuts are all of large size, perfect shape, smooth soft thin shell. Kernel white and sweet. It compares favorably with the French Walnuts.

ORNAMENTAL DEPARTMENT

SPECIAL LIST

We have a special list of large-sized ornamental trees, palms, and evergreens, such as we have a limited stock of, not included in this catalogue.

Palms, Dracenas, and Evergreens have been mostly grown in boxes from one to three years.

This list will be sent on application.

DECIDUOUS ORNAMENTAL TREES

TRAINED TREES

This class includes a variety of large-sized trees, whose straight, regular stems were headed back or cut down to a uniform height of nine feet, and handsome, well-formed heads grown thereon. They are in splendid shape for planting on avenues, streets, or roadsides, for immediate effect. With ordinary care, little or no loss should occur in moving them, as they have been frequently transplanted.

Diameter given is four feet above ground.

	Inches in Diameter	Each	Per 10
Ash —American	3 to 4	1 25	
.....	2½ to 3	1 00

Umbrella —Pine (Sciadopitys), 8 in. pot.....	3 to 4 ft.	4 00
7 in. pot.....	2½ to 3 ft.	2 50
Yew —English, balled.....	1½ to 2 ft.	1 00
Irish, balled.....	1 ft.	50
Japan (Podocarpus nericifolia), balled.....	3 to 4 ft.	1 50
6 in. pot.....	2 to 3 ft.	75

EVERGREEN TREES AND SHRUBS

		Each
Acacia —Armata, 3 inch pot.....	2 to 3 ft.	40
Cultriformis, 5 inch pot.....	3 to 4 ft.	50
3 inch pot.....	2 to 3 ft.	40
Cyanophylla.....		
Transplanted in boxes (of 40 each)		
8 to 10 in., per box.....		4 00
Dealbata, 2 inch pot.....	1 ft.	25
Transplanted in boxes (of 40 each)		
8 to 10 in., per box.....		4 00
Latifolia, 5 inch pot.....	4 to 5 ft.	60
3 inch pot.....	3 to 4 ft.	40
3 inch pot.....	2 to 3 ft.	25
Transplanted in boxes (of 20 each) 1½ to 2 ft.,		
per box.....		4 00
Lopantha, 6 inch pot.....	5 to 6 ft.	50
Leucophylla, 7 inch pot.....	4 to 5 ft.	75
Transplanted in boxes (of 40 each)		
8 to 12 in., per box.....		5 00
Macrademia, 5 inch pot.....	2 to 3 ft.	75
Melanoxylon, 6 inch pot.....	5 to 6 ft.	75
5 inch pot.....	4 to 5 ft.	50
3 inch pot.....	3 to 4 ft.	40
3 inch pot.....	2 to 3 ft.	20

		Each
Acacia —Mollissima, 5 inch pot.....	4 to 5 ft.	75
5 inch pot.....	3 to 4 ft.	50
4 inch pot.....	2 to 3 ft.	40
3 inch pot.....	2 to 3 ft.	30
3 inch pot.....	1 to 2 ft.	25
Odoratissima, 4 inch pot.....	2 to 3 ft.	75
Pinifolia, 7 inch pot.....	5 to 6 ft.	75
6 inch pot.....	4 to 5 ft.	50
5 inch pot.....	4 to 5 ft.	35
Transplanted in boxes (of 40 each)		
8 to 10 in., per box.....		4 00
Pycnantha, 6 inch pot.....	4 to 5 ft.	75
5 inch pot.....	3 to 4 ft.	50
5 inch pot.....	2 to 3 ft.	40
4 inch pot.....	1½ to 2 ft.	25
Retinoides Florabunda, 7 in. pot.....	5 to 6 ft.	75
7 in. pot.....	4 to 5 ft.	50
5 in. pot.....	4 to 5 ft.	40
Saliciana, 3 in. pot.....	3 to 4 ft.	75
Sauveolens, 10x10 in. box.....	6 to 7 ft.	1 00
8 in. pot.....	4 to 6 ft.	60
Trovissima, 5 in. pot.....	1½ to 2 ft.	75
Verticellata, 6 in. pot.....	4 to 5 ft.	50
Aralia —Sieboldii, 7 in. pot.....	1½ to 2 ft.	1 00
5 in. pot.....	1 to 1½ ft.	75
4 in. pot.....	1 ft.	50
Arbutus —Unedo, balled.....	4 to 6 ft.	1 50
balled.....	3 to 4 ft.	75
balled.....	2 to 3 ft.	50
Aucuba —Japonica, 10x10 in. box.....	4 to 5 ft.	2 00
balled.....	3 to 4 ft.	1 50
balled.....	2½ to 3 ft.	75
6 in. pot.....	1 to 1½ ft.	50
Viridis Latifolia, 10x10 in. box.....	4 to 5 ft.	2 00
balled.....	3 to 4 ft.	1 50
6 in. pot.....	1 to 1½ ft.	50
Azara —Microphylla, balled.....	3 to 4 ft.	1 00
balled.....	2 to 3 ft.	75
3 in. pot.....	1 to 2 ft.	50
Berberis —Darwinii, balled.....	3 to 4 ft.	1 25
balled.....	2 to 3 ft.	1 00
balled.....	1½ to 2 ft.	75
balled.....	1 to 1½ ft.	50

	Each
Berberis — <i>Ilicifolia</i> , balled..... 1 to 1½ ft.	50
<i>Stenophylla</i> , balled..... 4 to 5 ft.	1 00
balled..... 3 to 4 ft.	75
<i>Thunbergii</i> , balled..... 2 to 3 ft.	75
5 in. pot..... 1½ to 2 ft.	50
Blue Gum —See <i>Eucalyptus</i> .	
Box —Dwarf, per 10, \$2.00..... 12 to 18 in.	25
Golden Variegated, balled..... 3 to 4 ft.	1 00
Japan, Narrow-leaved, balled..... 2 to 3 ft.	50
<i>Sempervirens</i> , balled..... 2 to 3 ft.	75
balled..... 1½ to 2 ft.	50
<i>Sempervirens</i> <i>Argentea</i> , balled..... 3 to 4 ft.	1 00
<i>Sempervirens</i> <i>Olieifolia</i> , balled..... 2 to 3 ft.	1 00
Buddlea — <i>Globosa</i> , 3 in. pot..... 1½ to 2 ft.	75
<i>Variabilis</i> , 2 in. pot..... 6 in.	50
California Evergreen Cherry —5 in. pot..... 12 to 15 in.	40
3 in. pot..... 6 in.	25
California Laurel —boxed..... 9 to 10 ft.	2 50
balled..... 8 to 9 ft.	1 50
balled..... 6 to 7 ft.	1 00
balled..... 4 to 6 ft.	75
Camellia —Double Pink, balled..... 2 to 3 ft.	1 50
balled..... 1½ to 2 ft.	1 00
6 inch pot..... 2 to 2½ ft.	1 50
6 inch pot..... 18 to 24 in.	1 00
5 inch pot..... 15 to 18 in.	75
Variegated—5 inch pot..... 15 to 18 in.	1 00
Double Red, 6 inch pot..... 1 to 1½ ft.	1 00
5 inch pot..... 15 to 18 in.	75
Double White, balled..... 3 to 4 ft.	2 00
balled..... 2 to 3 ft.	1 50
8 inch pot..... 2 to 2½ ft.	1 50
6 inch pot..... 18 to 24 in.	1 00
5 inch pot..... 15 to 18 in.	75
Camphor Tree —6 inch pot..... 3 to 4 ft.	75
5 inch pot..... 1½ to 2 ft.	50
4 inch pot..... 8 to 12 in.	40
Cassia — <i>Corymbosa</i> , 5 inch pot..... 2 to 3 ft.	50
<i>Polyantha</i> , 5 inch pot..... 3 to 4 ft.	50
<i>Tomentosa</i> , 5 inch pot..... 4 to 5 ft.	50
4 inch pot..... 2 to 3 ft.	40
<i>Florabunda</i> , 2 inch pot..... 8 to 12 in.	25

			Each
Carpenteria Californica —balled.....	1 to 2 ft.		1 00
6 inch pot.....	1½ to 2 ft.		1 50
Casuarina —Cunninghami, balled.....	4 to 5 ft.		75
balled.....	3 to 4 ft.		50
balled.....	2 to 3 ft.		25
Quadrivalvis, balled.....	4 to 5 ft.		75
balled.....	3 to 4 ft.		50
balled.....	2 to 3 ft.		25
Ceanothus —Azureus Grandiflorus, 7 inch pot.....	2 to 3 ft.		1 00
Gloire de Versailles, 7 inch pot.....	2 to 3 ft.		1 50
Thyrsiflorus, 7 inch pot.....	2 to 3 ft.		75
Cestrum —Aurantiacum, 2 inch pot.....	1 ft.		25
Parqui, 6 inch pot.....	2 to 3 ft.		50
Laurifolia, 6 inch pot.....	3 to 4 ft.		75
Choisya —Ternata, balled.....	1 to 2 ft.	1 00	
4 inch pot.....	1 ft.		50
Christmas Berry —6 inch pot.....	1 to 1½ ft.		75
Coronilla —Emerus, 5 inch pot.....	1 to 2 ft.		50
Glauc, 2 inch pot.....	8 in.		25
Corynocarpus —Lævigatus, 4 inch pot.....	1 ft.		50
Cotoneaster —Microphylla, balled.....	2 to 3 ft.		75
Horizontalis, balled.....	1½ to 2 ft.		50
Cratægus —Lalandi, balled.....	3 to 4 ft.		75
balled.....	2 to 3 ft.		50
Pyracantha, balled.....	3 to 4 ft.		75
balled.....	1½ to 2 ft.		50
Daphne —White, 6 inch pot.....	1½ to 2 ft.		75
5 inch pot.....	15 to 18 in.		50
Variegated, 6 inch pot.....	1½ to 2 ft.		75
Daphniphyllum —Glaucescens, 6 inch pot.....	1 to 2 ft.	1 00	
Deeringia —Variegata, balled.....	2 to 3 ft.		50
Diosma —Alba, balled.....	1½ to 2 ft.		50
5 in. pot.....	1 ft.		40
3 in. pot.....	10 to 12 in.		25
Duranta —Plumieri, 5 in. pot.....	1½ to 2 in.		75
Escallonia —Berteriana, balled.....	2 to 3 ft.		75
balled.....	1 to 2 ft.		50

			Each
Eucalyptus —Sideroxylon (Red flowering), 6 in. pot . . .	4 to 5 ft.		50
5 in. pot . . .	3 to 4 ft.		40
Tereticornis (Grey Gum), 4 in. pot	2 to 3 ft.		40
Transplanted in boxes (of 24 each), 1 to 1½ ft.	per box,		2 00
Viminalis (Red Gum), 4 in. pot, per 10, \$2.	2 to 3 ft.		25
Transplanted in boxes (of 100 each), 6 to 8 in.	per box,		2 50
Viminalis Fertilis, 5 in. pot	3 to 4 ft.		40
4 in. pot	1 ft.		25
Transplanted in boxes (of 24 each), 1½ to 2 ft.	per box,		2 00
Eugenia —Australis, balled	2 to 3 ft.		75
Euonymus —Japonica, balled	2 to 3 ft.		50
balled	1½ to 2 ft.		25
Japonica Duc d'Anjou, balled	2 to 3 ft.		50

Multijuga Alba, pure white	50

BAMBOOS

Bamboos cannot be too highly recommended in garden decoration. This class of plants form one of the striking characteristics of the vegetation of China and Japan, where many species occur that are hardy here in California. They thrive best in a deep, rich soil, and require plenty of water when in a growing state. Under the general name of Bamboo are included species belonging to several genera, as *Arundinaria*, *Bambusa*, *Phyllostachys*, etc.

A list of large specimen plants of bamboos, not enumerated in this catalogue, will be mailed upon application.

		Each
Aurea —balled, 8 to 12 shoots.....	4 to 6 ft.	1 50
balled, 6 to 8 shoots.....	3 to 4 ft.	1 00

PALMS, DRACAENAS, AGAVES, YUCCAS, ETC.

PALMS

Palms have now become almost indispensable in all decorations, whether for apartments, or conservatories, or the production of tropical effects in landscapes. When planted out, no class of plants make such a grand display, and none are of more easy culture. Rich soil, mulching, and watering will in a short time produce grand specimens.

While our main stock of these highly desirable garden ornaments is grown in the open ground, thereby obtaining the finest plants, we also cultivate more or less of each variety in pots or boxes. These are well-established, well-furnished specimens, suitable for hall or house decorations, or, where immediate effect is desired out-of-doors, they can be used to great advantage, being almost absolutely safe from any set-back. We distinguish the hardy sorts with an *.

A list of large specimen plants, of palms, etc., not enumerated in this catalogue, will be mailed upon application.

ROSES

We make the growing of roses a specialty, and, in order to supply the increasing demand for this most beautiful flower, make careful tests of all the new varieties introduced, retaining only such kinds as prove meritorious. With our large stock and abundant facilities, we are thus enabled to offer a collection adapted to various localities and one that cannot fail to please the most fastidious grower. All our plants are grown entirely in the open ground, and consequently do not require the careful nursing, in order to insure success, which must be given to those propagated under glass in three months' time and sold at low rates. In the hands of rose lovers they cannot fail to give entire satisfaction the first summer after planting. From November to March they can be shipped in a dormant state packed in moss. For culture best adapted to each class, we refer to our Descriptive Catalogue, No. 2. The varieties which we can supply in Tree Roses will be found listed separately. For the convenience of our customers, we have arranged all our roses alphabetically in their various classes.

NEW ROSES

Price, each, 40 cents; per 10, \$3.00.

Balduin (Helen Gould)—An excellent variety, with large full flowers of fine form; bright glowing carmine; a free and continuous bloomer.

Climbing Kaiserine—Strong rapid climber, throwing up shoots 10 to 15 feet high. The flowers are pure white in color, and of greater substance, produced on long stiff stems.

Crimson Hermosa (Gruss an Teplitz)—“The reddest of all red roses.” In color the richest scarlet, shading to a velvety crimson as the flower matures; in size it is larger than Hermosa; very fragrant, free, strong grower, and most profuse bloomer.

Dorothy Perkins—Large clusters of double flowers, soft light pink, fragrant and lasting.

Gardenia—Flowers bright yellow, changing to a cream color when open; very fragrant; free bloomer.

Ivory—A sport from Golden Gate, with large pure white flowers.

Liberty—One of the finest early-flowering roses; in color warm rich crimson scarlet; surpassing its rival, the well-known Meteor, in abundance of bloom, size and color.

Mrs. Robert Garrett—Large flowers and fine foliage; buds long and pointed, opening beautifully; color of a glowing shell pink; very deep in center.

Queen of Edgely (or Pink American Beauty)—A sport of American Beauty; color a bright pink; flowers large and deep, cup-shaped; very fragrant, like its parent.

Soleil d'Or—The first of a new class of roses between the Persian Yellow and the Hybrid Perpetual Antoine Ducher. Large globular flowers, varying in color from gold and orange to reddish gold, shaded with nasturtium red.

GENERAL COLLECTION

Price, 25 cents each; per 10, \$2.00.

POT-GROWN ROSES

During Spring and Summer from 5 and 6-inch pots, 35c each; \$3.00 per 10. These will bloom at once and produce an immediate effect.

McMahon, red; Queen Victoria, double white; Single white; Tenuifolia, single, dark crimson; Tenuifolia fl. plena, bright crimson; Victor Morish, silvery pink.	
Pæony —Herbaceous, per 10, \$2.00	25
Amabalis, fine pink rose; Amabalis Grandiflora, light red, large double flowers; Bicolor Rosea; Compt de Paris, light rose; Carnea Elegans; Dark Red; Delicatissima; Edulis, violet rose; Elegantissima, flesh color; La Coquette, flesh color; Pottsii, pink; Pottsii Plena, very double pink; Pink; Peach, flesh color, fine flowers; Reevesii Pink; Sinensis Rosea Odorata, large fragrant flowers.	
Pelargonium —4 and 5 in. pots	25
Agatha, bright crimson; Beauty of Oxton, maroon; Capt. Raikes, fiery crimson; Dr. Masters, dark red; Duke of Albany, crimson maroon; Duchess of Bedford, pure white; Duchess of Teck, white; Embassy, white; Lord Derby, rose magenta; Mabel, dark maroon; Mad. Thibaut, white; Mad. Vibert, rose; Milton, white; Plateau, crimson; Prince of Pelargoniums, scarlet; Princess Maud, carmine; Queen Victoria, vermillion; Rustic, crimson; Striata Elegans, rose; Variegated, rose, striped with white.	
Platycodon —Grandiflorum, blue	40
Phlox —Herbaceous, assorted	35
Plumbago —Capensis, blue	35
Capensis Alba, white	40
Primula —Vulgaris (English Primrose), per 10, \$1.00	15
Romneya —Coulteri (California Tree Poppy), 5 in. pot. 10 to 12 in.	1 00
Rudbeckia —(Golden Glow), double yellow, per 10, \$2.00	25
Russelia —Elegantissima, flowers coral red	35
Ruscus —Aculeatus	25
Sagina —Pilifera, 4 in. clumps	25
Saxifraga —Umbrosa, bluish	25

	Each
Sedum (Stone Crop), 10 varieties.....	25
Selaginella —Emiliana, 4 in. pot.....	25
Shasta Daisy —White.....	25
Solidago —Canadensis (Golden Rod)	25
Serotina, yellow	25
Solanum —Pseudo-capsicum (Jerusalem Cherry)..... 2 ft.	50
Swainsona —Grayana, pink.....	40
Galegifolia Alba, white.....	40
Strelitzia —Regina (Queen Flower), 10x10 in. box.....	1 00
Tritoma —Uvaria (Poker Plant), orange.....	25
Pfizerii, orange scarlet.....	50
Valeriana —Rubra, red.....	40
Verbena —Assorted, all colors, after February 1, per 10, \$.75.....	10
Violets —Large clumps, per 10, \$2.00.....	25
California, Marie Louise, Swanley White, Princess de Gales.	

BULBOUS AND TUBEROUS ROOTED PLANTS

	Each.
Agapanthus —Umbellatus, blue.....	35
white.....	75
Amaryllis —Belladonna, pink, per 10, \$1 50.....	25
Defiance, carmine, lined white.....	50
Formosissima (St. John's Lily), crimson scarlet.....	50
Johnsoni, wine red, white stripes.....	50
Lindeni, color varying from nearly white to dark crimson.....	50
Longifolia Alba, large white flowers, very fragrant....	40
Lutea, golden yellow.....	50
Caladium —Esculentum (Elephant's Ear).....	50
Calla Lily —Black Calla.....	25
Elliottana, golden yellow.....	1 00
Italian Giant, white.....	40

	Each
Calla Lily —Little Gem Calla, white.....	40
Spotted Leaf Calla, white.....	25
White Calla (Lily of the Nile), balled.....	25
Dry Bulbs, per 10, \$1 00.....	15
Crinum —Amabilis, large white, pink center.....	75
Dahlia —Cactus, new.....	50
Archne, petals are creamy white, edged with a broad band of crimson; Green's Gem, rich orange; Kingfisher, purplish crimson; Miss Anna Nightingale, large deep yellow, heavily tipped bright red; Mrs. Dickson, red, striped white; Ruby, deep vermillion; Strahlen Krone, intense cardinal red.....	
Dahlia —Cactus, per 10, \$2 00.....	25
Austin Connell, light crimson rose; Chas. Woodbridge, light crimson; Geo. Marlow, primrose yellow; Hohenzolern, bronzy orange red; John H. Roach, soft yellow; Juarezii, scarlet; Mabel Keith; Miss Webster, white; Mrs. A. Beck, salmon red.	
Dahlia —Large flowering, per 10, \$2.00.....	25
Ada, scarlet, semi-double; Bird of Passage, lilac, edged pink; Bismarck, scarlet, semi-double; Beauty of the Grove, yellow, the petals being tinted with purple; Bob Ridley, scarlet striped white; Charm, cream color, edge tinted purple; Charlotte, white, shaded pink; Dr. Boyers, scarlet, striped white; Duke of Rochester, golden yellow, shaded brown; Large Maroon; Lady Paxton, white bordered lilac; Mr. Thompson, orange, shaded brown; Queen Mab, crimson; White Rose.	
Dahlia —Small Flowering or Boquet Dahlias, per 10, \$2.00.....	25
Little Model, red; Little Valentine, crimson; Meteor, yellow ground, tinged reddish; Sunshine, orange, striped red.	
Dielytra —Spectabilis (Bleeding Heart).....	40
Gladioli —Per 10, \$0.75.....	10
Cardinalis, scarlet; Colvillei, purple striped; Queen Victoria, salmon scarlet, feathered white; The Bride, white.	
Childsii, mixed, per 10, \$1.00.....	15
Lily —Assorted, per 10, \$2.00.....	25
Auratum, Album, Candidum (St. Joseph's Lily), Longiflorum, Harrisii (Bermuda Lily), Rnbrum.	

	Each
Montbretia —Per 10, \$1.00	15
Crocosiæflora, Pottsii, Parfait, Eldorado.	
Tigridia (Shell Flower), yellow spotted, per 10, \$1.00	15
Narcissus —Assorted, per 10, \$1.00	15
Oxalis —Buttercup, per 10, \$1.00	15
Tuberose —Italian and Pearl, per 10, \$0.75	10

WATER PLANTS

	Each
Nelumbium Speciosum —(Egyptian Lotus), Rose pink	75
Nymphaea —Flava (Florida Water Lily), yellow	50
Odorata (Fragrant Water Lily)	50
Odorata Rosea (Fragrant Water Lily), rose-flowering ..	75
Papyrus —Antiquorum (Egyptian Paper Plant)	50

CATALOGUES

The following catalogues are published, some annually, others at intervals as becomes necessary, and are mailed free to customers, as soon as issued, and to all other applicants on receipt of amount in stamps named below:—

- No. 1. Descriptive Catalogue of Fruit Trees, Small Fruits, Figs, Olives, etc., 4 cents.
- No. 2. Descriptive Catalogue of Shade and Ornamental Trees, Shrubs, Roses, Climbing Plants, etc., 6 cents.
- No. 3. Catalogue and Price List, Free.
- No. 4. Catalogue of Phylloxera-Resisting American Grapes, Free.

CALIFORNIA NURSERY COMPANY,

JOHN ROCK, Manager.

Niles, Cal., Nov. 1, 1903.

TREE PLANTING AND PRUNING

The territory to which we now ship our trees covers a variety of climate, from the balmiest of the South to the severe cold of the North, so that we cannot give any directions, or advise as to what and when to plant.

A few "hints," however, as to what should be done in all climates will, if followed, add greatly to the success of the purchaser.

PREPARATION OF THE SOIL.

The ground should be plowed at least twice, and the second plowing should be as deep as can be done, using a sub-soil plow the second time. The ground should be well drained so that no stagnant water remains about the roots.

HEALING IN TREES.

On receipt of the trees a ditch should be opened in loose soil, put in the trees side by side and cover the roots with loose soil, careful that it is well filtered among the roots to keep them moist.

PLANTING.

The holes should be dug at least eight inches to one foot larger in every direction than required by the roots when spread out in their natural position. The top soil should be broken down from the edge, and raised to a cone in the center in the hole to set the tree on, and the roots then brought to their natural position, while one man is holding the tree, let the other shovel in the top soil, which should be made quite fine, carefully between the roots until covered, then tamp firmly as the filling up progresses, when nearly all filled in, place two inches of fine loose soil on the top.

The tree when planted may in light soil stand from two to three inches deeper than it stood in the Nursery, but in heavy clay, or wet ground, it is advisable to have it stand at the same height as it was before transplanting.

PRUNING.

The tops should be shortened in more or less, depending on size, variety, and condition of the trees. In commercial orchards one year old trees are cut down from 18 inches to 2 feet above ground, and all side limbs are cut to one or two buds; two year old trees with formed tops should be shortened in from 6 inches to 1 foot of main stem.

No summer pruning should be done the first year, strong growing side limbs on lower part of the tree can be shortened in from six inches to one foot from stem, so that the leaves left will shade the tree.

SHADING.

On account of our long, hot, dry summers, it is well to shade the sunny side of the tree, to keep borers out, with a board or shake, stuck in the ground, or a piece of burlap wound loose around the tree up to the limbs, top tied loose with a string. Whitewash made out of whiting or lime, will also protect the tree against sunscald.

PHOENIX, CANARIENSIS—Canary Island Palm.

E. C. HUGHES, Printer, 511 Sansome St., S. F.
